January 25, 1943

Mr. C. S. Parker, Clerk
Town of Chittenden
Vermont

Dear Mr. Parker:

Chittenden having accomplished an outstanding job in the collection of salvage for the contest period July 1 to December 31, 1942, by exceeding the 110 pounds per capita required, is hereby awarded the right to inscribe "M" for Merit on the annual report for the year 1942. In testimony thereof, this certificate is presented.

WILLIAM H. WILLS, Governor.

VERMONT SALVAGE COMMITTEE

A. VAIL ALLEN, Chairman

J. O. BAXENDALE, Executive Secretary

STATE OF VERMONT
OFFICE OF AUDITOR OF ACCOUNTS
MONTPELIER

May 4, 1943

Mrs. Frances W. FitzGerald, Chairman
Auditors, Town of Chittenden
Chittenden, Vermont

Dear Mrs. FitzGerald:

1. In accordance with your instructions we have examined the books, records and accounts of the Town of Chittenden for the period February 1, 1942 to January 31, 1943, and certify that, in our opinion, the exhibit and accompanying schdules fairly present the financial position of the Town on January 31, 1943, and the results of operations for the period reviewed.

2. Cash was verified from actual count by the Town Auditors, and by confirmation from depositaries. Receipts, such as State Aids, licenses, borrowings and delinquent taxes were verified. All other receipts were verified with such records as were available in the office of the Town Treasurer.

3. Disbursements were checked in detail with orders drawn, and while several slight variations were noted, disbursements were correctly made for the most part. A list of the variations are attached.

4. **Taxes.** The Grand List Abstract book was totaled to an amount of \$6516.51, which agreed with the amount set up in the Treasurer-Collector's book of taxes to be collected. This, however, does not check with the amount of \$6460.37 ½ as reported by the Town to the State Tax Commission with audit findings. Tax was assessed on the amount of \$6516.51.

5. **Delinquent Taxes.** The delinquent tax books were checked with the original tax books, and with one exception no dis-

crepancies were noted. (It was ascertained that the name of Carl Larson was omitted from the Delinquent Tax book, with a delinquency of \$18.00. This increased the amount of 1942 delinquent taxes due from \$516.65 to \$534.65.) Receipts were on file covering all payments made to the Treasurer. It is suggested that the proper authorities see that the name of Carl Larson is added to the Delinquent tax book for collection.

6. **Treasurer.** The Treasurer's books were incomplete in almost every detail, necessitating considerable ground-work as a basis before any other work could be done.

Exhibit 1

Balance on hand as of February 1 '42	\$	2,879.33
Plus Receipts for period		62,116.48
		<hr/>
	\$	64,995.81
Less Disbursements for the period		63,351.59
		<hr/>
left a balance of	\$	1,644.22
Balance in Bank as of February 1, 1943	\$	1,953.76
Less outstanding checks (list attached)		584.26
		<hr/>
	\$	1,369.50
Plus Cash on hand (Deposited in Bank on March 2, 1943)		134.78
		<hr/>
	\$	1,504.28
		<hr/>
resulted in a difference of	\$	139.94

undoubtedly due to variations in the balance on hand at beginning of the past fiscal years. After a thorough examination and discussion of the audit, the Boards of Town Auditors and Selectmen have OK'd this difference.

A. All funds of whatever nature received by the Town Treasurer and Collector, in his or her official capacity, should be deposited in a bank in preferably separate bank accounts for the two officers.

B. A receipt should be issued for **all** items of income, in duplicate at least, so that the town treasurer, and collector, will have a copy to support every entry to his or her ledger.

C. Disbursements should be made by the Town Treasurer only, and only upon orders signed by the officials properly authorized to draw them. Such disbursements preferably should be made only by checks. In the past year a number of items were paid by cash. It was noted that in only one instance was an order considered negotiable and cashed by a Rutland Bank. This was taken care of through the regular procedure at a later date when the Bank realized their error. No order should be negotiable as the town treasurer is the true disbursing officer.

Disbursement orders.

in checking the School Department orders it was noted that rubber stamp facsimiles of the members' signatures have been affixed, and in a good many instances only one member of the Board has signed. It is understood that in the past in a number of instances, the Board Members' signatures have been affixed **AFTER** the orders have been paid. School orders are drawn by the Superintendent of Schools' office and not by the Chairman of the School Board as is usually customary. It is recommended that the instances listed above be corrected in the elimination of the rubber stamp signatures; the required number of signatures affixed to each order, etc., etc.

It is noted that the Selectmen have signed a number of orders in blank. It is recommended that this practice be discontinued, signatures being affixed only to complete orders.

A duplication of order numbers was noted in some of the departments, the orders running up to a certain number and then

starting over again with number 1. It is recommended that each year's numbers start with #1 and continue in sequence throughout the full fiscal year.

Cancelled orders should be sent to the Treasurer's office to complete the continuity of numbers.

It is recommended that the present method of filing orders and checks together be continued. However, the Treasurer should be sure to reconcile each bank statement as it is received, before the checks are split up into file groups.

Orders should not be combined into one check in making payments as the filing system does not lend itself readily to this practice.

At the end of the fiscal year each department's record of orders drawn must balance with the Treasurer's total for that department. Therefore, the Treasurer should not accept any cash from the holder of an order so as to increase the amount of the check by that amount of cash. This is mentioned at this time as 19c was accepted in one case to increase the check from \$14.81 (the amount of the order) to \$15.00, to enable the "order holder" to send the town check to another source in payment of a bill.

If the town treasurer cashes checks with town funds, he does so on his own responsibility. Many towns have found it advisable to discontinue the practice of cashing checks as an accommodation.

The \$2000. Norris and Bell Walker note originally written for 5% per annum interest, is now payable, through mutual agreement, at the rate of 2% per annum. In as much as the 5% interest written into the note can be legally collected, it is suggested that

1. A new note of \$2000. be executed with interest written at 2% per annum.
2. That the interest on the original note be paid to date of execution of the new note, and the old 5% \$2000. note be surrendered to the Town for cancellation.

At the request of the Selectmen, the Auditor spent Tuesday with the Town Clerk and Treasurer going over the reconciliation of bank balances and various other items to familiarize the Treasurer with the book routine.

We wish to take this opportunity to thank the town officers contacted for the cooperation given us during our examination.

Sincerely,

DAVID V. ANDERSON,

Auditor of Accounts.

IN MEMORIAM

WILLIAM SLOCUM BARSTOW

William Slocum Barstow, financier, public utility executive, philanthropist, engineer, inventor, Christian gentleman and benefactor of Chittenden, Vermont, died at his Long Island home, "Villa Freba", Great Neck, New York, on the night of December 26, 1942, in his seventy-seventh year, after an illness of several months.

Chittenden was very dear to Mr. Barstow and his honored wife—Francoise Duclos Barstow. It was here he maintained a summer home. Here is located one of his former utility companies (now the Central Vermont Public Service Corporation). Here his late son, Frederic Duclos Barstow, spent much time, and here his parents erected and gave to the Town of Chittenden, the "Frederic Duclos Barstow Memorial School," regarded by many as the most complete and well appointed rural school unit in our Nation. Already by this school hundreds of young men have been trained as skilled mechanics, and are now working either in defense production centers or are serving in the Armed Forces.

Mr. Barstow was born in Brooklyn, N. Y., February 15, 1866, son of Frank Davis Barstow and Mary W. Barstow. He was graduated from Adelphi Academy, Brooklyn, N. Y., and four years later, 1887, from Columbia College (now Columbia University).

In those days, there was no electric industry as such. No text books on electricity and no full study courses on the subject; only interesting classroom experiments with galvanic batteries, leyden jars, magnets, etc.

The undeveloped character of this field aroused a deep curiosity in the young graduate. He would and did seek to explore its vast possibilities. He began as an apprentice at \$8.00 per week with the Edison Machine Works in Schenectady, N. Y., which was pioneering in electrical experiments with varied types of apparatus.

There and then began a life-long, close friendship with the "Electrical Wizard of the Nineteenth Century"—Thomas A. Edison.

They worked together, consulted together and experimented together, and while Mr. Edison may rightly be called the "Father of the Modern Age of Electricity," which has so greatly changed the living conditions of the entire world, Mr. Barstow likewise made notable contributions. He was one of the first to bring out an electric refrigerator. He introduced the first central station storage-battery. He invented the Barstow Booster feeder regulation without resistance, of railway systems. He designed and installed the first system of arc lighting. He planned for the increase in rail facilities on the Brooklyn Bridge and installed its electrification.

He moved ahead fast in his chosen field. In 1901 he became a consulting electrical engineer and a recognized authority on hydro-electric and steam systems.

Gradually from engineering he moved into the field of public utility financial structures and formed the "W. S. Barstow and Co. Incorporated", of which he was president. In 1912 he organized the "General Gas and Electric Corporation", operating a group of utilities in eight Eastern States, etc, etc.

In 1918, the "Edison Pioneer Group" was formed, confining its membership to old time Edison employees. Mr. Barstow was one of the founders and held the office of President from 1929 through 1936.

During this time he arranged with Mr. Henry Ford to transfer to a suitable building in Dearborn, Michigan all the original models and material used by Mr. Edison in the beginning of his electrical experiments at Menlo Park, N. J., thus preserving for historic purposes, the old dynamos, transformers, generators, batteries etc. that marked the opening of an age of light in darkness, was a highly important achievement.

At Menlo Park, the site of those pioneering days, Mr. Barstow built a huge steel tower surmounting its top with a powerful incandescent light, and installed at the base, "An Eternal Light to be Kept Forever Burning."

In 1929 Mr. Barstow retired from active business life and devoted the remainder of his years to public benefactions and private philanthropy. Best known to Chittenden is the Memorial School. In Great Neck, Long Island where he lived, he gave to St. Paul's Church a commodious Parish House, and to All Saints' Church a building of like character. In Stuart, Florida, where he had a winter home, he gave a Hospital, and Mrs. Barstow built a Church.

Needed new buildings to add to the physical equipment were erected by him on the Campuses of Adelphi Academy, Columbia University, Stevens Institute and the Pawling School. Nor did he neglect to contribute endowment funds to care for up-keep.

His son Frederic had explored the Samoan Islands and reported the needs of the inhabitants and had set up a fund to meet their requirements. His father added to the endowment and established the "American Samoan Foundation Incorporated," the income of which was to be used for the education of the Islanders.

Churches, Y. M. C. A's, individuals and worthy causes were ever being remembered by him and Mrs. Barstow.

Mr. Barstow loved his fellow man and every thing that was fine. He wanted all to be happy and did his best to make them so. He was a gracious host and delighted in companionship. He was kind but firm, soft spoken but convincing. He had a keen sense of humor and enjoyed a wholesome joke. He was a rare conversationalist and from his wide experience and far travels, an hour spent listening to him was better than a public lecture.

He was a devout believer in God, and held that whatever fortune had been his, it was his privilege and joy to share. He was modest, genial and democratic, but strong in his convictions of justice and right. He was a wise counsellor, a loyal friend and a patriotic American. He was interested in youth, believed in education, and many a young man is today a college graduate because of this interest.

He was a Christian gentleman, ever considerate of the feelings and welfare of others.

To those who may read these words who knew him not, nor

can, now that he is gone; may this too brief account of a truly noble man increase their faith in God and man, and lead to a determination to live likewise, leaving the world better for their having lived.

These lines would not be complete or true without reference to one—Francoise M. Duclos, who in October 1894 added his name to hers and down through the years shared his every joy, sorrow and good work.

May she who survives her husband and son be sustained and comforted by the Great Father of us all.

Fortunate indeed is Chittenden, Vermont, above many another community in that it has known the living presence of William Slocum Barstow and his wife, Mrs. Francoise Duclos Barstow!

Written by request of the town officials for records of the Town of Chittenden, by

GEORGE W. PECK, JR.

GENERAL NOTES

The above statement at the close of the period ending February 1, 1932, indicates a rather large deficit. However, the due tuition for the first half of the present school year, which is billed on February 1, is not included in the resources. Thus, if due tuition were included it would account for a large portion of the indicated deficit. Tuition is billed on February 1 and June 15 of the school year, and cannot be included in the report of the Town Fiscal Year. Also, the increased expenditures are due to major repairs at the Holden School, where expensive repairs were required for the toilet system. Also, the Holden School was painted inside and outside. Pupil transportation costs indicate a marked increase, and teachers' salaries are definitely increasing. Such increases are the trend of the times, and the School Department anticipates further increased costs of operating the schools. Such increases are caused by factors which are in no way controlled by the local School Department. The major portion of last school year, all of the present school year, and plans for the next school year, are all based on War Times, which mean increased costs of all services and materials used in the school department.

The school department, after rather careful consideration of problems, makes the following suggestions for consideration by the voters:

- (1) School costs are increasing for both services and materials, and if the schools are to be maintained at present standards, more funds must be available, or the deficit must be cared for at the close of the fiscal year in the manner prescribed by the laws of Vermont. At present, there has been introduced into the Vermont Legislature, a bill to increase the State Financial Aid to local schools. If this bill becomes a law, some additional funds will be available for the 1943-44 school year. In order to assure operation of schools at present standards, the raising of the present school tax rate from 85 cents to \$1.00 should be given serious consideration. Such a raise in rate is general in these times, and practically all school departments are requesting increased funds.

(2) It is suggested that the School Department Account be operated as a separate account in the bank. Due to the fact that a rather large amount of money is rebated to the School Department from both State and Federal sources; and that bills for such rebated funds have to be paid for a period of from two to six months before rebate is received, it is necessary to borrow a large amount of money in anticipation of such rebated funds. This exceeds the borrowing power of the town at present, and does not allow the other town departments to borrow money for operating expenses and does not allow school department to pay current bills on time. If the School Department Account were made a separate account in the bank, and the School Department did the necessary borrowing to finance current operating expenses, the schools would be enabled to meet all current operating expenses, and borrow only as required. This matter is a serious problem for the School Department.

(3.) The attention of the voters is again called to the fact that the annual school financial report as of February 1, as required at present, does not indicate the actual financial standing of the department. All financing, except local town portion, is on a fiscal year which ends annually on June 30. Thus, on February 1, the funds which are rebated are not complete for any given period. If all reports could be based on a fiscal year which includes a complete school year, ending on June 30, the true financial standing would be indicated. In order to make such a change, however, it will be necessary that funds be voted for two periods, Period one to be from Feb. 1, to July 1, of the current year and period two to be from July 1, of current year to June 30 of the next year. After the change is once made, funds will be voted annually for the one fiscal year extending from July 1, to the next June 30.

WAR PRODUCTION TRAINING PROGRAM NATIONAL DEFENSE TRAINING PROGRAM

During fiscal period from February 1, 1942 to February 1, 1943 orders totalling \$13,499.22 have been drawn. During the same period, there has been received from the State Treasurer, the sum of \$12,731.42. At present there is due from the State Treasurer rebates for the months of November, December, and January.

Through written agreement, all expenditures connected with this account are rebated from the State Department of Education, and the account is balanced annually at the close of the fiscal year July first.

VOCATIONAL, TRADES, AND INDUSTRIES

During fiscal period from February 1, 1942 to February 1, 1943, orders totaling \$3,415.18 have been drawn. During the same period, there has been received from the State Treasurer, the sum of \$5,243.08. Reimbursement for the period July 1, 1942 to January 31, 1943 has not been received.

Through written agreement, all expenditures connected with this account are rebated from the State Department of Education, and the account is balance annually at the close of the fiscal year on July first.

AUDITORS' REPORT

We the Auditors of the Town of Chittenden have met and audited the Annual Reports. We sincerely believe that our audit is correct to the best of our ability.

Signed,

FRANCES W. FITZGERALD,
RUTH CREED,
FLOYD H. TYLER,

Auditors.

WAR SAVINGS BONDS

To the People of Chittenden:

During the past year the people of the State of Vermont have purchased \$18,000,000 worth of War Savings Bonds. This represents an investment of approximately \$50 for every man, woman and child in the State.

Vermonters were able to buy \$18,000,000 worth of bonds last year mostly because 410 industrial and mercantile establishments throughout the state have provided a means whereby their employees can buy bonds on an installment basis. More than 38,000 men and women are included in the plan. Every week or every month these employers deduct from the employee's wages the amount that the employee has designated and the money is invested in War Savings Bonds.

Good though this record may appear it is not good enough. As Vermonters we did not meet the quota assigned to us, a quota based on known earned income. There are thousands of people throughout the State of Vermont **who have not yet bought a bond**, people who can and should buy them.

When you read this town report and realize that you manage your own town affairs because this is a free country just ask yourself, "Am I putting enough into this war effort to insure a continuance of freedom?" If you are not, then make plans to start buying stamps and bonds at once. Make a regular, definite commitment to buy systematically. Only in that way can you derive the full advantage of having such an investment offered you. Only in this way can our Government derive the benefit of your money **NOW**.

Our President says, "We fight to retain a great past . . . We fight to gain a greater future." Do your part by buying bonds.

FRED C. MARTIN,

State Administrator

War Savings Staff.

OLD AGE ASSISTANCE DEPARTMENT
STATE HOUSE
MONTPELIER, VERMONT

For the information of your taxpayers, the customary annual statement is presented for your town report.

Payments of Old Age Assistance to persons applying from your town amounted to \$1,230.00 during the year January 1, 1942 to December 31, 1942.

The number of recipients in December, 1942 was 6.

As this program touches every community and many persons, we believe the public should know the following facts:

The increase in the cost of food, fuel, rents and services constitutes a serious problem to persons dependent on small fixed allowances and has been the cause of much concern to the Old Age Assistance Department which is responsible for the welfare of about 5,400 aged individuals now receiving assistance. In addition, there are some 500 eligible applicants who cannot yet be helped because sufficient state funds are not available.

The resources of this department and its ability to make grants are determined by the state appropriation which is matched by federal funds. The Legislature, conscious of the needs of the aged citizens of the state, has frequently given favorable consideration to this problem. The expenses of administering the program have been the lowest of any state in the Union on a comparable basis.

The advice and council of local officials and interested persons have been very valuable and are gratefully acknowledged.

Very sincerely yours,

W. ARTHUR SIMPSON,
Director.

VITAL STATISTICS

1942

BIRTHS

- Jan. 28 Earl Arthur to Guy and Gladys (Elliot) Wheeler.
